"ConPHessions of a PHormerly PHat PHilatelist"

SYNOPSIS

Now that I've lost 130 pounds, I've reworked my 2004-2006 three frame "tongue in cheek" reminiscence of my life as a PHat PHilatelist (which received the "Most Popular" award at numerous philatelic events including the National APS Stamp Show).

This new exhibit has been PHattened up to five frames to include more world-wide philatelic items such as stamps (even a few CTOs for variety), plate blocks, revenues, meters, tuberculosis seals, cinderellas and labels, errors, specimens, proofs and progressive proofs, postal history, first day covers, special event covers, maximum cards, post cards and cancellations.

Some complain philatelic exhibiting can be dry and boring. I beg to differ. ENJOY!
